Fresno County Park Closures

Lost Lake Park, located along Friant Road, adjacent to Friant, CA and Skaggs Bridge Park, located along Highway 145, north of Kerman, CA continues to be closed to the public due to flood releases from Millerton Dam.

The flood releases have inundated portions of both parks and continue to be a public safety hazard. At this time it is not known as to when the flood releases will be reduced; however it is expected to last potentially through the end of April.

Avocado Lake Park, located in Piedra, CA, Kearney Park, located just west of Fresno on Kearney Blvd and Laton Park, located just south of Laton on Fowler Ave. remain open to the public.
