Drawing No.: E1.1 / E3.0	Spec Section:
--------------------------	---------------

Question Type or print one question below

On the exterior of the building note 1 states to make a connection to a backlit sign. On the fixture schedule is says that fixture type GE is a custom sign (Sheriff's Badge). On the cover sheet for the plans, the picture shows two Sheriff Badge signs at the same location as the plans view says to make a connection. Are these two signs fixture GE type, and are they to be provided by the owner or by the contractor?

Response
