

FRESNO COUNTY DEPARTMENT OF BEHAVIORAL HEALTH - OUTCOMES

PROGRAM TITLE: TAY Mental Health Services and Supports

PROVIDER: Turning Point

PROGRAM DESCRIPTION: The TAY (Transitional Age Youth) Program is an ACT model outpatient mental health program serving consumers that are between the ages of 16-24. We provide services to a minimum of 99 consumers that have a serious mental illness or serious emotional disturbance and require ongoing services. Many of these consumers are aging out of Children’s Mental Health, Foster Care, out of the Juveniles Justice System and are at risk of being hospitalized, homeless and or incarcerated, as well as consumers referred by Fresno County Behavioral Health Court. The TAY Program provides an opportunity for consumers to receive mental health services, case management, group/individual/family counseling, medication and psychiatrist services, secure affordable housing, and recognize their strengths and abilities to successfully gain independence and self-sufficiency in the community. This is a program that assists consumers with life transitions and empowers consumers to achieve a variety of goals. Consumers also obtain the skills they need to learn to live independently in the community as adults.

AGES SERVED:

- Children
- Adult

- TAY
- Older Adult

DATES OF OPERATION: 8/11/09 - current

DATES OF DATA REPORTING PERIOD: Jan-Dec 2012

FRESNO COUNTY DEPARTMENT OF BEHAVIORAL HEALTH - OUTCOMES

OUTCOME GOAL

OUTCOME DATA

Reduce incidents of inpatient psychiatric hospitalizations.

Y1 87% reduction
Y2 90% reduction
Y3 97% reduction

Reduce incidents of homelessness.

Y1 97% reduction
Y2 84% reduction
Y3 91% reduction

Reduce incidents of incarcerations.

Y1 91% reduction
Y2 92% reduction
Y3 98% reduction

Consumers will be able work towards moving to a lower level of care within the county/community based system.

Jan 2012 – Dec 2012
9% reduction in LOCUS scores

(The 9% reduction in LOCUS scores continues to represent overall progress in the TAY client population in relation to mental health, housing, and at risk areas. The TAY program continually works toward program and client specific goals in relation to providing independent skills necessary to reflect LOCUS reduction scores.)

FRESNO COUNTY DEPARTMENT OF BEHAVIORAL HEALTH - OUTCOMES

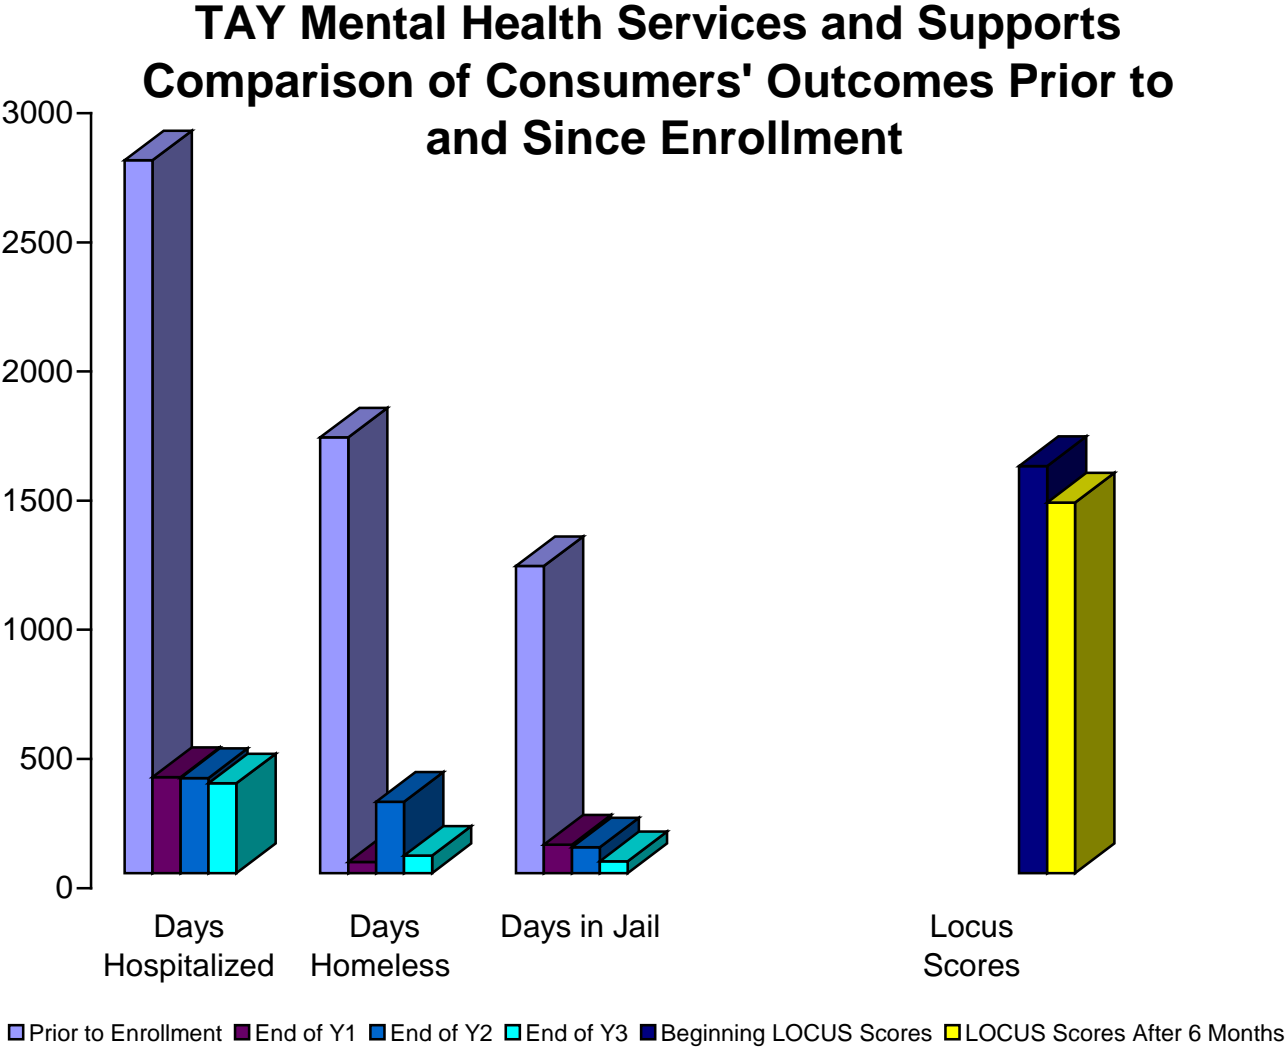

Reduction of LOCUS Scores:

Total *PAF LOCUS Score=	1606
Total 6 month LOCUS Score=	1466
Total LOCUS Reduction=	140 (9% reduction)

PAF is the Partnership Assessment Form given to FSP clients when they are first admitted into the program. The LOCUS provides an objective measure to help determine consumer service needs. It also provides a way to measure consumer progress and treatment outcomes. A higher score indicates a higher level of service need.

DEPARTMENT RECOMMENDATION(S): Based on outcome and contract measurements reported, the Department recommends to continue MHSA funding for this program for FY 2013-14.

See page 4 for table

Approximately 99 clients are seen at any given time
