

Radio Amateur Civil Emergency Services

The Fresno County Radio Amateur Civil Emergency Services (RACES) is an organization of volunteer licensed amateur radio operators who provide emergency radio communications in the event of emergency or disaster to augment local governments within Fresno County. Communications difficulties are often a factor during disasters. RACES volunteers are often called upon to provide radio communication for local government agencies to assist with disaster response coordination. Fresno County RACES members developed the Fresno County RACES Plan to reflect the organizational structure, membership criteria, operational procedures and training standards.

Licensed amateur radio operators, 18 years of age or older who are interested in joining Fresno County RACES may contact Glen Caine, Fresno County RACES Officer at telephone (559) 292-461 1, or email at n6hew@worldnet.att.net.
