Discussed and Decided at August 15 R&E Meeting

Results of interviews with CCP Executive Members
Simpler data presentation for CCP monthly meetings
• Some wanted more advice and “so what”
• Now moving to a more analytic-outcome based reporting format
• Need to explore outcome measures and sources
• Many felt that the R&E Committee should vet data before presenting it to the CCP
• Focus on outcomes of programs and alternative sentencing: Limits of non-randomized samples and small sample sizes
R&E Committee Agreed to

• Use the CPOC and Sheriff’s Association data “dashboard” for monthly updates.

• Meet more often to review data two weeks before the CCP meetings.
Owen Research Evaluation will

• Plan for “so what” reports re trends and policy recommendations.
• Design more analytic/outcome-based reports at 4 or 6-month intervals.
• Plan for these reports to be presented to R&E.
• Explore additional data sources, for example,
  – Arrests/Success
  – Filings
  – Early releases
  – Other outcomes
Owen Research Evaluation will

• Continue to meet with data partners to refine data analysis.
• Develop & vet Annual Report Design
• Collaborate with Turning Point to design a process and outcome study (working with Turning Point staff for a data sharing agreement).
• Have an advisory role to NIC/Urban Institute Transition from Jail to Community (TJC).
