☐ True ☐ False – Base contact required

Patient has age appropriate Glasgow Coma Score?

☐ True ☐ False – Base contact required

There are NO barriers to communication with patient's parent/guardian/conservator?

☐ True ☐ False – Base contact required

Patient's parent/guardian/conservator's competency is NOT affected by alcohol or drugs?

☐ True ☐ False – Base contact required

Patient is NOT exhibiting signs or symptoms of behavioral emergencies?

☐ True ☐ False – Base contact required

Patient's parent/guardian/conservator is competent:

Understands medical condition?

☐ True ☐ False – Base contact required

Understands treatment options?

☐ True ☐ False – Base contact required

Understands potential risk of refusing treatment?

☐ True ☐ False – Base contact required

EMT or Paramedic has NO concerns about patient's parent/guardian/conservator's competency?

☐ True ☐ False – Base contact required

**If any response is FALSE, Base Hospital contact is required.**

If all responses are TRUE, patient's parent/guardian/conservator can sign Refusal of Medical Care and Transport form without Base Hospital contact. The EMT/Paramedic and patient or legal representative must sign the Refusal of Medical Care and Transport form (EMS Policy #811) along with a witness. The witness signature confirms that all other signatures are voluntary and not offered under duress. The EMT or Paramedic must sign below signifying that the "Patient Refusal of Medical Care and Transport Screening Form" was reviewed with the patient or legal representative.
