

In a virtual classroom, or in-person classroom, **your child needs to be immunized.**

In order for your child to attend school, all school districts in Fresno County require immunization records. If your child is not up-to-date with vaccines, it can compromise their health and academic growth.

Why Does Your Child Need Immunizations?

With COVID-19 closing schools, you may have delayed your child's vaccination schedule. Now that children are starting to return to school, children who are not vaccinated can be exposed to dangerous childhood diseases including:

- Whooping Cough • Measles • Meningitis
- Chickenpox • Tetanus

Who Should Get Vaccinated?

To ensure health and safety, all children attending private and public schools, preschools, and childcare will be required to be up to date on their immunizations.

**Don't wait – make an appointment
with your child's doctor today.**
