Step 1: This Waste Management Plan - Determination Form (Page 1) must be submitted and approved prior to permit issuance.

The Integrated Waste Management Act of 1989 (AB 939) requires cities and counties to reduce, by 65%, the amount of waste disposed of in landfills by the year 2000 and beyond, or potentially incur fines of up to \$10,000 per day. This Waste Management Plan and the Waste Log/Acknowledgements are designed to assist County compliance with this State mandate, and provide builders with a means of documenting the waste reduction requirements included in the latest edition of the California Green Building Standards Code (CALGreen, Section 4.408.1-5).

Projects are required to submit their Waste Log, Acknowledgement Form, and Weight Receipts prior to Certificate of Occupancy (CO) issuance. <u>Failure to provide documentation of solid waste (trash) reporting</u>, reporting of waste diversion less than 65%, and failure to provide adequate weight receipts, may render a WMP non-compliant and owner subject to fines.
