

COMPLIANCE BULLETIN

Fresno County Behavioral Health

Publication Date: 08/16/2022

POLICY NOTICE

- ❖ Policy Being Summarized
CalAIM Goals for Persons
Served
- ❖ CB-CalAIM Goals
- ❖ Policy effective date:
07/01/2022

This Bulletin pertains to all staff working in the entire system of care in both Mental Health and Substance Use Disorder.

Staff are encouraged to click on the links below and review the Communication Materials provided by CalMHSa. These materials can help persons served understand what CalAIM is and how it will affect them.

The Department of Health Care Services (DHCS) has identified the primary goals of CalAIM for persons served receiving Mental Health (MH) and Substance Use Disorder (SUD) services. These goals will greatly impact millions of Californians that are currently enrolled in Medi-Cal.

CalAIM is committed to transforming and strengthening Medi-Cal by making the program more equitable, coordinated and person-centered. Below are the stated goals:

- Improved access to MH and SUD services
- Improved teamwork among the providers
- A more seamless and supportive treatment experience
