

SUDS BULLETIN

Title: CalOMS Treatment and Prevention Reporting Requirements		Issue Date: November 20, 2014	Issue No.: 14-03
Approval:  Joseph Rangel, Division Manager Contracts Division - Mental Health and Substance Use Disorder Services		Function: <input checked="" type="checkbox"/> Treatment <input checked="" type="checkbox"/> Prevention <input type="checkbox"/> Education/Training <input type="checkbox"/> Fiscal <input type="checkbox"/> Other	Expiration Date: N/A Supersedes Bulletin/SUDS Letter No: N/A

PURPOSE:

The purpose of this Bulletin is to notify substance use disorder (SUD) treatment and prevention service providers of the requirement to submit service-related data to the State Department of Health Care Services (DHCS) through the California Outcomes Measurement System (CalOMS) treatment and prevention modules.

DISCUSSION:

The Fresno County Department of Behavioral Health - Contracts Division - Substance Use Disorder Services is responsible for ensuring that all providers are meeting the data submission requirements to DHCS so that DHCS can (1) satisfy the federal Strategic Prevention Framework model for prevention data collection requirements; (2) effectively manage and improve the provision of treatment services provided to SUD clients at the State, county and provider levels; (3) meet federal and state reporting requirements, including reporting obligations to other State agencies; and (4) report to the Administration, Legislature, federal government, county boards of supervisors, provider boards of directors and other third-party payers information regarding the effectiveness of SUD programs in California.

In a recent DHCS audit, the County was required to write a policy outlining the treatment and prevention provider CalOMS reporting requirements.

Prevention providers must:

- Meet data reporting requirements for capacity, process and outcomes as required by federal grant requirements.

- Submit data specific to the Strategic Prevention Framework via the CalOMS Prevention module as evidence of engagement and use of the practices.
- Submit data on a weekly basis by following the submission procedures and data format requirements described in the CalOMS Prevention User Manual available at: http://www.kitsco.com/casupport/WebHelp/CalOMS_Manual.htm

Treatment providers must:

- Submit treatment admission, discharge, annual update and “provider no activity report” records through the County's Substance Abuse Information System (SAIS) on a schedule as determined by the County which complies with State requirements for data content, data quality, reporting frequency, reporting deadlines, and report method and due no later than five (5) days after preceding month.
- Ensure data is completely, accurately and timely.
- Submit data following the information and requirements in the CalOMS Treatment Data Collection Guide available at: http://www.dhcs.ca.gov/provgovpart/Documents/CalOMS_Tx_Data_Collection_Guide_Jan%202014.pdf

The County is responsible for uploading provider treatment data to the State's CalOMS treatment module by the fifteenth (15th) of each month. Prevention providers must input their data directly into the CalOMS prevention module. The County is responsible for ensuring that 100% of the providers have input their data for submission to CalOMS.
