

**Provider Meeting
May 5, 2010**

Highlights

Announcement: Need to have CalOMS Log-on information to the State by this Friday, so please send in as soon as possible if you have not already sent in.

ADP Bulletin – Criteria for Discharge Treatment Clients

Dennis gave the providers a handout of the ADP Bulletin #10-04 giving minimum criteria for discharge for successful/unsuccessful completion. He also informed providers of a potential problem with DMC billings for NTP services for Phase II. There is a billing requirement to submit to other health care coverage prior to submitting to DMC. You will need to check to see if client has other coverage first and bill.

Completion Rates

Passed out to providers the last quarter of completion rate. Reports findings are providers need to retain clients better. Will be conducting a 9 month check to see if rates are better/worse. Will be asking to use poverty base as a factor at State level.

Open Admissions

Still have a open admissions that are too high. Need to have them closed.

Prop. 36 Referrals

Still some funds available but referrals are winding down. Funding is expected to run out mid April.
